

## PHCC ASSOCIATION MEMBERS,

Finding the best employees - full-time, part-time, or contract labor is tougher than ever. Stand-alone Teladoc Telemedicine can give you, the business-owner members of PHCC, the extra advantage of a more healthy, present, and loyal workforce – all at PHCC members-only group pricing.

*Join us Tuesday, February 28, at 2:30 PM CST or  
Thursday, March 2, at 11 AM CST for:*

***Recruit*** (talent), ***Retain*** (loyalty), and ***Reduce*** (cost of benefits)

*To register, simply [CLICK HERE](#)*

*[Everyone who joins us will receive a \\$20 gift – just for attending.  
\(one per company\)](#)*

This webinar will focus on the forces you are up against in this battle for labor, and give you specific ideas for “getting a leg up” on your competition – especially if you are like:

- a. **Johnny** – Just opened a new shop, can’t afford to provide his workers a full medical plan, but wants to ensure that everyone at least has free access to some sort of basic access to prescription-writing, U.S.-based doctors for primary care.
- b. **Frank** – Has many part-time, non-English speaking, and contract labor folks that are ineligible or not participating in his medical plan, yet he needs an edge to give him more power to recruit and retain these individuals.
- c. **Dorothy** – Manages a large shop but is concerned because most employees choose single medical coverage leaving their family members with nothing.
- d. **Jeff** – Is concerned about emotional, relational, or substance-abuse issues among his workers and would like a comprehensive behavioral health plan to give his people instant, free access to life coaches and psychiatrists in time of need.
- e. **Janet** – Oversees a large operation, spends a ton on their self-funded medical plan, and needs a way to offset claims and reduce next year’s renewal increase.

**Do any of the above business owners sound like you? Try something new in 2023.**
